

The Couple's Sexual Health Study

The purpose of this study is to see what you and your partner think about an online sexual health HIV prevention toolkit for couples residing in Rochester, NY.

You and your partner will use the toolkit and provide feedback on what you like, don't like and recommend to make the toolkit better.

You and your partner will be compensated for your time and travel.

Couples are self-defined, are cis-gender heterosexual, self-identify as Black and have been together for 6 months or more. Each partner must be 21 years old or older.

For more information and to participate, please contact:
